### MERIDIEN CONSULTING ENGINEERS

Alberta-based, Canada-wide company designing structural and mechanical-electrical systems for commercial, industrial, institutional and residential buildings.

Our team of expert professional engineers designs structural systems that will hold up even under the heaviest heavy snow and wind loads, using light and elegant designs.

We act as consultants for architects, design-builders and public and private building owners.

With an expert staff of over 100 professional engineers in offices across Canada, the company is responsible for award-winning projects in North America and around the world.

Recent award-winning projects: Waterfront Complex, North Tower and Main Transit Station in Edmonton.

Services include construction management, project management, asset management, land planning and development. Principals are: John Smith, Chief Executive Officer; David Brown, Vice-President Infrastructure; Jane Taylor, Vice-President Environment.
